<u>Message</u>

I am delighted to note that Pioneer Institute of Professional Studies organizing 11th National Conference on "Mapping for Excellence: Challenges Ahead" in Association with AIMS, Hyderabad.

India is witnessing unprecedented changes in all the sectors which pose lot of challenges to be tackled and huge opportunities also. In fact, it is the need of the hour to brainstorm on measures to make things improve for the coming generations.

I hope that the deliberations and interaction between research scholars, students, faculty members and professionals would go a long way in developing effective strategies for a brighter future of our country.

I wish a grand success for the 11^{th} National Conference.

(Laxmikant Sharma)
